PRAYING FOR DELAY

CONSERVATIVES CIRCULATING PETITIONS

Several Items in the Supplementary Estimates Agreed To.

(Bulletin Special Dispatch.)
Ottawa, Oct. 7.—The attention of the House was occupied today on the discussion of the validity of the signatures to the numerous petitions being sent to the government praying for delay in regard to the transcontinental railway. The project was referred to the privileges and elections committee.

A motion to strike out the item of twenty-five thousand dollars for the transportation committee was defeated by a vote of 40 to 24.

The item of \$85,000 for the Macleod and Lethbridge bridges was agreed to. A further item of \$25,000 for the Yukon trail was also agreed to.

WEATHER

The weather has been fine throughout the Territories and Manitoba, with frost this morning in Saskatchewan and Assiniboia. A continuation of fine weather is probable with a general tendency towards higher temperatures.

GRAIN QUOTATIONS

Winnipeg oats, No. 2 white, 32 cents a bushel.

HOCKEY ENTHUSIASTS

Held a Very Large and Successful Meeting Last Night.

A large, representative and enthusiastic meeting of those interested in hockey was held in the Hamilton office last night. Al. Brown as president occupied the chair, and calling the gathering to order, in a few words outlined the purposes for which the meeting was called. Harry Helliwell was called on. He read an extensive report of the financial condition of the club, showing that at the commencement of last year's season there was \$27.80 on hand. The different receipts and expenditures were recited and the final cash on hand showed the handsome sum of \$213.85.

This report was received with a great deal of satisfaction, and in adopting Mr. Helliwell's report a hearty vote of thanks was accorded him for the very able and efficient manner in which the club's business had been conducted.

The question of the hockey club leasing the rink for the coming season was discussed at length. Various opinions were set forth, but the meeting finally and unanimously decided that it would be to the best interests of the club not to leave the rink.

The election of officers was then proceeded with, which resulted as follows:
Patrons—K. Rymor, Mr. Sappie, R. Secord, T. A. Stephen, T. Hourston and Rev. H. A. Gray.
Hon. President—Al. Brown.
President—Jno. W. Morris.
Vice-president—Jno. I. Mills.
Secretary-Treasurer—H. F. S. Greenwood.

Manager and trainer—C. Griffiths.
Assistant manager and trainer—P. W. Hutchings.

Committee—Harry Helliwell, A. F. McLeod, Ralph Bellamy, Percy Olds and H. Campbell.

The question of uniforms was then discussed. Last year the colors were black and green. It was decided to adopt permanent colors, to consist of white sweaters with a broad green band around the middle of them, and green collars and cuffs. The secretary and committee were instructed to immediately order the uniforms, which should be of the very best quality obtainable.

After more or less discussion on various other subjects of interest, and the reading of letters referring to the game with the Calgary professionals, it was decided to call another meeting for Thursday, October 29th, to be held in the same place.

HOTEL ARRIVALS

Wednesday.
Windsor—C. W. Armstrong, C. H. Gale, Montreal; Mrs. Hamilton, Waskiwin; Mrs. Johnston, Millet; J. B. Kilgour, Winnipeg; J. F. McDonald, Montreal; F. W. Wakeford, Hamilton; C. M. Bowker, Mansville; M. T. Markel, P. E. Banker, Chicago; Alberta—A. Moden, G. A. Christie, Winnipeg; H. A. Ager, Moncton, N. B.; C. G. Craig, Mrs. C. G. Craig, Compton, P.Q.
Queens—Jno. Leask, London; Kenna, Halifax, N.S.; G. Calder, Brussels, Ont.; Chas. Stuart, Fort Saskatchewan.

LOCAL

—Train is one hour late.

—One iron gray filly and a number of cows are in pound today.

—Mr. John Milner has erected a frame house 22x16 near his coal mine.

—The Firth-Eaton Concert Company appear in Robertson hall this evening.

—Construction work is well under way for the Salvation Army barracks on Fraser avenue.

—The high winds of the first of the week and the present fine weather are drying up the roads.

—A Cristall sold 25 feet of the lot on Jasper avenue, west of Thos. Hourston's, at \$225 a foot.

—Brickwork has commenced on the Alberta hotel. All the stonework of the first story has been completed.

—The Firth-Eaton Concert Company showed in Calgary on Monday night to a very appreciative audience.

—Notwithstanding the reports being circulated of severe frosts in this district, several large beds of pansies may be seen in different places in Edmonton. Mr. Jno. Milner has a large bed of these pansies in full bloom out in an open garage.

—Rev. A. M. McDonald, pastor of the Edmonton Baptist church, who, as we mentioned, had received a call to the New Westminster church, has decided to remain in Edmonton. The Baptists are to be congratulated on being able to retain the services of such a capable pastor.

—The Calgary city engineer and Mr. Sweet, contractor for the gasolite sidewalks being laid down there, are having considerable trouble. The contractor neglected to adhere to the engineer's specifications on several occasions. Further trouble ensued until the contractor stopped work and dismissed his men.

—The improvements to the Baptist church are now nearly completed and the church will be ready for occupation by October 18th, on which date there will be special thanksgiving services both morning and evening, conducted by the pastor, Rev. A. M. McDonald. At these services a special offering will be taken up to go towards the building fund.

—One of the busiest places in Edmonton, the city of busy places, is the bottling works. This establishment is running in full blast and is turning out a great quantity of bottled soft drinks for the local trade as well as the trade down the line to Calgary. The machinery is of the very latest design and a visit to the works is very interesting.

CURLING MEETING

A largely attended meeting of those interested in curling was held in the waiting room of the skating rink last night. R. Secord, M. L. A., president of the curling club occupied the chair and many matters relating to the work of the coming season were fully discussed. A bonspiel committee consisting of Messrs. J. B. Mercer, A. C. Fraser and John Mac 44's appointed to make arrangements for the holding of a large bonspiel in Edmonton during the coming season. The secretary was instructed to enquire into the feasibility of forming a district curling association in Northern and Central Alberta.

The membership fee was fixed at ten dollars. There is now a membership of over eighty and all those wishing to join this season should hand in their names as soon as possible to the Secretary, W. Ramsay. A number of pairs of first class curling stones have been secured for the use of the members. Everything points to a highly successful season during the coming winter.

DIDN'T CARE FOR BRONCHO BUSTING

While the touring British editors were in Calgary a broncho busting entertainment was given them. One of the editors writing to his paper, the Aberdeen Free Press, says regarding part of the entertainment:

"The glamour which surrounds the cowboy's life is strong. The night we were at Calgary a crowd of several hundreds gathered to witness a cowboy contest between a local hero and a man from Montana. These displays are popular here. If the one we saw was typical, they are very spectacles. One trial of skill was to rope and ride a steer. The beast was described as wild steer, but it had to be driven out of the pen at the side of the field. After it had been started at a run, the cowboy galloped after it, threw a noose round the beast's neck and tripped it up. A saddle was put on its back and the cowboy jumped onto it, one of his companions on horseback all the time holding the first with the loop on the steer's throat. With vigorous

EDMONTON STRATHCONA.

Imporing the steer was forced into a gallop. It plunged about for a minute or two, and when it stood up from sheer exhaustion, blood oozing from its nostrils. The spurs were once more driven into its flanks and the wretched beast started again, the cowboy all the time flinging it with a throng whip and waving both arms to show that he was not grasping the saddle. This is roping and riding a steer. Such a thing has never to be done in actual ranch work. It is a mere piece of circus display, and in respect of wanton ill-treatment it is on much the same level as bull-baiting."

The Coming Metropolis.

Mr. R. I. Riley, manager of the Canadian Insurance Company, thus speaks of Edmonton in the Winnipeg Free Press:

"Edmonton reminds me of what Winnipeg was like twenty-one years or so ago, during the boom. Not that there is that craziness in speculation and that rush to get lands and that sky-rocketing of prices, but the expectations for great things in the future are almost as high, and everyone is confident that Edmonton will be the banner town of the west outside of Winnipeg. They expect three railroads there, and the fact that the C. N. R. has already the station site mapped out and all in readiness to go ahead with the work has told them there is more than mere talk in connection with all that is promised for the town."

Buy city property now and share in the big increase of values which is bound to come in the near future. The Great West Land Company can suit you in any kind of city property if any person can. See them today.

EDMONTON 200 MILES LESS BY C.N.R.

The following article appears in a recent issue of the Winnipeg Tribune:

"An official of the Canadian Northern, who accompanied Vice-President D. D. Mann and General Superintendent James on their recent trip of inspection to the head of the line, is enthusiastic as to the prospects of the Edmonton extension. 'The line,' he said, 'is finished now, to a point some fifty miles west of Grand View. From there it is six hundred miles straight run to Edmonton and much grading has been done. They are laying steel from the rail head at a rate of from two to three miles a day. The gradients are slight and the curves good. The line will be open just one year from today.'

"Now, just look at our map, and think for a moment what this means. The first thing that strikes you is the almost absolute straightness of the track from Grand View to Edmonton. Of course, the reason of this is because we have not had to dodge light lands, or alkali, or swamps, marshes and a difficult country. It's just all flat, rolling prairie, the finest wheat land in all the west.

"Yes, there's lots of good water. You see we cross the Saskatchewan twice, and there is the Assiniboine too, besides any number of cheerful streams. As I said before, there is no alkali at all; indeed, I don't think there is an unproductive acre in the whole country we tap. Now, take another look at the map. Follow an air line to Edmonton, and the tortuous C. P. R. line to the same place. Why we make it shorter from Winnipeg to Edmonton than from here to Calgary! Our Edmonton route will, therefore, be quite two hundred miles shorter. Well, I have used up all my time, and, I daresay, enough of yours. Yes, we go to Edmonton first. From there we can look over the edge to the Pacific and pick out a good trail to the ocean. You see, the policy of the Canadian Northern is to take one step at a time. That is the reason that there is so little mud about our skirts, and it accounts for our few mistakes. The general Canadian public have hardly an idea of how great a system this is and will be."

A TERRIBLE TORNADO

Winona, Minn., Oct. 4.—Seven people dead and twenty-three injured, over fifty buildings in ruins and a property loss of at least \$200,000 is the result of a tornado which swept St. Charles yesterday afternoon about 2:30 o'clock. The worst storm in the history of Winona county spent its force on the little town and almost wiped it out. Utter confusion reigned in the town. The streets were filled with wreckage of buildings, trees and farm implements which were blown through the air. The horror of the affair completely paralyzed action for a time on the part of the citizens who stood around bewildered at the awful devastation caused by the elements. It was some time before crews began to clear away the debris, which it is feared may cover many a sickening sight.

St. Charles is a village of 1,500 inhabitants on the western boundary of Winona county, and is one of the oldest settlements in the state.

The tornado was formed by the union of two storm clouds over the southern limits of the city, and with a roar swept through the centre part of the town. In less than three minutes every building in the center of the city was either totally demolished or badly damaged.

Baraboo, Wis., reports a cloudburst more severe than was ever known in that region. It lasted three hours, and four inches of water fell. Many buildings and windmills were blown down, cellars were flooded and several washouts are reported. Telephone and telegraph poles were destroyed.

A special last night from Marquette, Mich., says: The country near Lake Gogebic was visited by a destructive tornado this evening. The storm is said to have centered at Ewen, where a number of houses are supposed to have been blown down, and a wide path was swept through the woods.

Falling trees have broken all wires west of Sidway and details are unobtainable. A strong gale is blowing in Marquette.

A special from Waupaca, Wis., says: "A terrific wind and rain storm passed over Almond yesterday afternoon, destroying several houses and barns. Three persons are reported to have been killed at the home of Albert Holtz."

"The storm was most severe at Blaine and moved over a wide path. Great damage and loss of life are reported at Sheridan. Samuel Erickson is reported to be barely alive, having been buried under his barn. Robert March, of Blaine, was slightly injured in the same way. The storm broke without notice after a muggy day."

Houghting, Mich., reports that the heaviest rainfall for several years has deluged the copper region during the last twenty-four hours. The street car lines' embankments were washed away at various points.

Racine, Wis., was flooded with rain. Trees were blown down and wires were broken. During the storm Carl Parson, a painter, was electrocuted in late street by coming in contact with a live wire.

ROSS BROS. LTD.

WINNIPEG MARKETS

Commercial, October 3rd.

Wheat.—In regard to Manitoba wheat, while prices have come down from the high point of a fortnight ago the present situation is in a measure, one by itself. To begin with, a good deal of wheat was traded in August and September for forward delivery in September and October. Practically all the early sales were on the basis of 1 hard and 1 northern. All but a small portion of the wheat sold in this way was taken by a large milling company and a large shipper intimately connected with the Ontario trade, and commencing in early August sales were made on basis of 1 hard at 76 in store, Fort William, for September delivery, gradually advancing up to the comparatively high price of 89c paid on September 15. The regular exporters have not, up to the present time been able to come into the market, prices paid have been so much over export basis. Meanwhile between the middle of August and the third week in September recurring unsettled weather caused delay in harvesting and threshing, and deterioration in quality, which was entirely unforeseen, and which was not estimated properly until shown by the inspection of recent shipments. In Southern Manitoba the crop had been early and light and a good portion of it in that district was threshed before the heavier storms came which damaged so much the crop over other parts of the country. The earlier inspections, therefore, showed a moderate percentage of No. 1 hard, and a very large percentage of 1 northern, making it look like a 1 northern crop. Then the big storm of the 12th September occurred, and when threshing and shipping was resumed the inspections began to show a very different aspect. The 1 hard has practically disappeared and 1 northern is now running about 25 per cent. of the whole, with 2 northern about 40 per cent., and the balance No. 3 northern, no grade, rejected, etc. While the crop as regards yield and bushels is quite satisfactory, and would with average seasonable weather, have been largely 1 hard and 1 northern, the quality has been much deteriorated by the extremely unfavorable weather and an appreciable loss in quantity has also taken place. The general effect of the situation in the Manitoba trade has been very unsatisfactory, for it turns out that buyers at country points have paid high prices for wheat that does not grade, and much of this wheat has been sold ahead on sales it cannot be delivered on, and thus while the prices of the lower grades have been getting down to about export value, the high grades are at a premium above milling value. During the past week trade has been quiet and mostly dull, but as receipts increase the market must have the help of the exporters to relieve it and given it into activity. A better enquiry for wheat was noted yesterday than during the previous days, and at the close of business yesterday we quote spot wheat enroute past Winnipeg at 86c 1 hard, 82 1-4c 1 northern, 76 1-4c 2 northern, 71 1-4c 3 northern, and for October delivery 1 northern 62c, 2 northern 75 3-4c, 3 northern 71 1-4c, all in store Fort William or Port Arthur. Dried or scarred wheat we quote at 78c for 1 northern and 73c for 2 northern, in store King's elevator Port Arthur.

Oats.—Receipts of oats are light and the market is firm. There are not enough coming forward to meet the current requirements of the trade. Stocks of old oats seem to be about cleaned up and dealers are not anxious to handle new lots owing to their damp condition. It seems likely that oats fit for milling will continue scarce as most of these seen so far are discolored and some are mildewed. The feed trade will benefit by this condition, as many cars which otherwise would find their way to the mills will be rendered unfit for this purpose by these defects. Eastern prices for oats are relatively lower than the bid price today on track Winnipeg is 32c per bushel of 34 pounds. We quote present value of old oats: No. 1 white, in carlots on track here, 33c per bushel; No. 2 white, 32c; feed grades 30 to 31c. This quotation for feed grades is a nominal one as there are practically none offering. Fort William figures are the same as Winnipeg.

Barley.—There is hardly anything doing in barley yet, as new crop has not commenced to arrive freely. What little there has been was dark and discolored by the rains. No. 3 grade is worth today 38c per bushel of 48 pounds, in store, Fort William, or 31 to 32c at country points.

WHITE WHALE LAKE

It does begin to look as if the world moves, even to our very limited range of vision in this western limit of settlement: when we see and hear the whistle and puffing of the steamer on the North Saskatchewan as a frequent occurrence; and when we meet railroad engineers sent to spy out the land for the prospective Grand Trunk Pacific Railway. The latter declare the line will not be far off us, as the determination is to take the most direct route possible compatible with low grades. They also assert that we will see building operations next sea-

son, west as well as east of Edmonton.

The steamers are being utilized by the lumbermen to get their supplies taken up stream ready for next winter's operations. It is preferable to hauling them over the roads as they are.

Our postal arrangements are to be improved upon next week by the mail carrier going out on Tuesday a.m. to connect with the outgoing mail from Stony Plain to Edmonton. This gives us prompt connections outward as well as inward. In this we are indebted to the carrier's generosity, as he volunteered to do this although not required by the post office department.

Monkey Brand Soap cleans kitchen utensils, steel, iron and tinware, knives and forks, and all kinds of cutlery.

WE HAVE JUST

opened some cases of new goods for fall and winter wear.

They contain the newest effect in weave and fabric obtainable.

The cut and tailoring of garments made in our shop are absolutely correct. We make clothing to order and make it to fit.

FUEL.

Lay in your supply is our advice, rather than to wait until our annual famine comes.

We Cannot Get It.

Seems to be the reply from every source already. What will it be later?

COAL.

We can supply your need with Brandt coal from the Moret mine, known to be the best of the market.

WE

Have the facilities to handle the coal and wood business in connection with our well established transfer business and it is our intention to lay in a reserve supply of both coal and wood, so as to cope with the demand later.

WOOD

We can supply after Monday, the 10th of October.

POTTER & MACDOUGALL

Phone messages received at our business house, No. 121, and at private house after hours, No. 172.

Nanaimo—J. H. Hawthorthwaite.
New Castle—P. Williams.

Labor, 1.

Slocan—W. Davidson.

PERSONAL

J. Leask, of Leduc, returned south this morning.
Lester Cannon left for a few days' visit to his home in Lacombe this morning.
Dr. D. G. Peat, of Athens, Ontario, is in Edmonton today in the course of a trip through the west.
H. A. R. Pringle, inspector for the Anglo-American, Equity and London Mutual Fire Insurance Companies, spent Monday in the city looking over the companies risks with local agent Hatchard.
J. B. Church, of the Conley Church Organ and Piano Company, who has sold out his Edmonton business to R. W. Millar, formerly of Madoc, Ont., left Edmonton yesterday morning after a couple of weeks' visit here.
The regular train from the east failed to connect with the northbound train at Calgary yesterday, and consequently there was no mail from points east of Calgary last night. The cause of this is not known, but it is said to be an accident on the main line.

E. C. PARCEE, Acting Manager

It may not be generally known that we are in the Belting Business but we are very much in it. We don't touch the cheap kind, but we sell the best grade of Leather Belting produced (Extra Brand), Single and double, all sizes. Once used, always used.

We have just unpacked our winter stock of Horse Blankets and Robes, and our showing easily surpasses anything ever offered in the City before. Thirty different kinds of Blankets, from the plain Jutes to the elaborate Stay-on's, and if we cannot suit you we have the satisfaction of knowing that nobody else can. We invite you to examine our stock.

Just a word about Trunks and Valises. We pay particular attention to these goods, and can say as a matter of fact without boasting that our stock is not only the largest but the best assorted in the City before. Don't take our word, but come and look around. We have a carload arriving in a few days which will make our stock equal to anything west of Toronto, and that is saying a good deal. Trunks from \$1.25 to \$40. Valises from 75c to \$15, and Suit Cases as high as \$35. See our special Ladies' Dress Trunks, nobody else has them. These are all bought direct from the factory and the prices are right.

Don't overlook us when you need a good set of Harness. We take pride in turning out good work.

The Great West Saddlery Company, Limited

COME TO HEADQUARTERS

when you want a good-fitting Business or Black Suit.
